ABOUT THE COMPANY

JaisonMed Private Limited is a trusted manufacturer and supplier of surgical products, dedicated to supporting healthcare professionals and improving patient outcomes. Founded in 2022, the company provides reliable medical and surgical solutions to hospitals and clinical facilities across India.

Focused on safety, precision, and performance, JaisonMed offers a wide range of wound care and dressing solutions, including surgical tapes, bandages, gauze products, dressings, IV fixation products, and transparent film dressings.

All products are developed using modern manufacturing technologies and are subjected to strict quality control at every stage, ensuring compliance with global standards, consistent performance, and patient safety.

OUR MISSION

To deliver world-class, innovative, and affordable wound care and dressing solutions that enhance patient care and safety.

OUR VISION

To be a globally recognized leader in surgical products, known for quality, innovation, and service excellence.

OUR CORE VALUES

- Quality & Safety – Meeting the highest medical standards
- Innovation – Continuous improvement driven by research and clinical insights
- Integrity – Ethical and transparent business practices
- Customer Commitment – Dedicated support for healthcare professionals

MICROPOROUS SURGICAL TAPE

KEY FEATURES

- **Microporous structure:** Allows airflow and reduces skin maceration
- **Hypoallergenic adhesive:** Gentle on skin (good for sensitive skin)
- **Good conformability:** Adapts to body contours
- **Easy tear:** No scissors needed (paper-like)
- **Secure fixation:** Holds dressings and devices in place
- **Minimal residue:** Cleaner removal than cloth tapes

TYPICAL USES

- Securing **wound dressings** and gauze
- Fixing **IV lines**, catheters, and drains
- Securing **tubes and medical devices**
- Light support for splints or padding
- General first aid and emergency care

SIZES AVAILABLE

1.25 cm X 5 mtr	1.25 cm X 9.1 mtr
2.5 cm X 5 mtr	2.5 cm X 9.1 mtr
5 cm X 5 mtr	5 cm X 9.1 mtr
7.5 cm X 5 mtr	7.5 cm X 9.1 mtr

ELASTIC ADHESIVE BANDAGE (EAB)

KEY FEATURES

- Elastic with strong adhesion
- Zinc oxide / rubber-based adhesive
- High tensile strength
- Provides firm compression
- Stays in place during movement
- Skin-friendly (medical grade adhesive)

COMMON USES

- Joint immobilization (ankle, knee, wrist, elbow)
- Sports injuries
- Ligament and tendon support
- Compression bandaging
- Fixation of dressings and splints
- Varicose vein compression (under medical advice)

SIZES AVAILABLE

6 cm X 4 mtr	10 cm X 4 mtr
8 cm X 4 mtr	10 cm X 1 mtr

CREPE BANDAGE ELASTIC CREPE BANDAGE

KEY FEATURES

- **Elastic & Stretchable** – allows controlled compression
- **Breathable Cotton Fabric** – comfortable for long wear
- **Reusable & Washable**
- **Easy to apply** with clips or tape
- **Non-Adhesive** (does not stick to skin)

COMMON USES

- Sprains and strains (ankle, wrist, knee)
- Muscle injuries
- Joint support during movement
- Post-injury compression to reduce swelling
- Sports injury management
- Varicose vein support (light cases)

SIZES AVAILABLE

6 cm X 4 mtr	10 cm X 4 mtr
8 cm X 4 mtr	15 cm X 4 mtr

ADHESIVE TAPE USP

SURGICAL ADHESIVE TAPE USP GRADE

KEY FEATURES

- **Strong adhesion** with reliable holding power
- **Medical-grade adhesive**
- **Fabric (cloth) backing**—durable and tear-resistant

COMMON USES

- Fixation of **primary and secondary dressings**
- Securing **gauze, pads, and bandages**
- Holding **IV lines, catheters, and tubes**
- General surgical and first-aid applications
- Immobilization support when combined with padding

SIZES AVAILABLE

1.25 cm X 1 mtr
2.5 cm X 5 mtr
2.5 cm X 1 mtr
5 cm X 5 mtr
7.5 cm X 5 mtr
10 cm X 5 mtr

GAUZE SWAB

(SURGICAL GAUZE SWAB)

Available in E/O Sterile,
Gamma Sterile and Non-Sterile Options

KEY FEATURES

- High **absorbency**
- Soft, **lint-controlled**
- Skin-friendly cotton
- With or without **X-ray detectable thread**
- Folded edges to minimize loose fibers

COMMON USES

- Wound cleaning & dressing
- Absorbing blood/exudate
- Applying antiseptics
- Padding under bandages
- Post-operative care

SIZES AVAILABLE

5 cm X 5 cm X 8/12/16 Ply
7.5 cm X 7.5 cm X 8/12/16 Ply
10 cm X 10 cm X 8/12/16 Ply

COMBINE DRESSING

KEY FEATURES

- **High absorbency**—suitable for heavy exudate
- **Soft, cushioned pad**—patient comfort
- **Outer gauze layer**—strength and protection
- **Non-adhesive**—requires tape or bandage for fixation

COMMON USES

- Post-operative wounds
- Surgical incisions
- Trauma and accident wounds
- Burns (secondary dressing)
- Heavy drainage wound care

SIZES AVAILABLE

10 cm X 10 cm X 01 Nos.
10 cm X 15 cm X 01 Nos.
10 cm X 20 cm X 10 Nos.

Available in E/O Sterile,
Gamma Sterile and Non-Sterile Options

ABDOMINAL MOP

(X-RAY DETECTABLE ABDOMINAL PAD B.P.)

Available in E/O Sterile,
Gamma Sterile and Non-Sterile Options

KEY FEATURES

- **Very high absorbency** (blood & fluids)
- **Soft, non-abrasive cotton gauze**
- **X-ray detectable thread** (standard safety requirement)
- **Pre-washed & lint-controlled**
- **Sterile, single-use**
- Often supplied **with or without loop/tape**

COMMON USES

- Abdominal and laparotomy surgeries
- Gynecological procedures
- General & trauma surgery
- Absorbing blood during operations
- Temporary packing and organ protection

SIZES AVAILABLE

30 cm X 30 cm X 8/12 Ply
25 cm X 25 cm X 8/12 Ply
25 cm X 40 cm X 8/12 Ply

POP BANDAGE

(PLASTER OF PARIS BANDAGE)

KEY FEATURES

- **Fast setting** (initial set ~3–5 minutes; full strength in ~24 hours)
- **Smooth molding** for precise anatomical fit
- **High rigidity** after setting
- **Good X-ray translucency**
- **Easy to apply and remove**

COMMON USES

- Fracture immobilization (arms, legs)
- Temporary splints
- Post-operative orthopedic support
- Correction and support in deformities
- Emergency trauma care

SIZES AVAILABLE

5 cm X 2.7 mtr	12.5 cm X 2.7 mtr
7.5 cm X 2.7 mtr	15 cm X 2.7 mtr
10 cm X 2.7 mtr	20 cm X 2.7 mtr

Available in E/O Sterile,
Gamma Sterile and Non-Sterile Options

GAMJEE ROLL

(SURGICAL COTTON PADDING ROLL)

KEY FEATURES

- **Highly absorbent** cotton padding
- **Soft & cushioned**-patient comfort
- **Wrapped in gauze** to hold fibers together
- **Non-adhesive**
- **Easy to cut and apply**

COMMON USES

- Padding under **POP** bandages and splints
- Orthopedic casting support
- Absorption of wound exudate (secondary dressing)
- Protection of bony prominences
- General surgical and first-aid padding

SIZES AVAILABLE

10 cm X 3 mtr
15 cm X 3 mtr

Available in E/O Sterile,
Gamma Sterile and Non-Sterile Options

SOFT ROLL

(ORTHOPEDIC CAST PADDING)

KEY FEATURES

- **Soft & uniform padding**
- **Highly conformable**-wraps smoothly around contours
- **Non-absorbent / low absorbent** (synthetic fibre)
- **Lint-free**
- **Easy tear & easy application**
- **Latex-free** (most variants)

COMMON USES

- › Padding under **POP bandages**
- › Padding under **fiberglass casts**
- › Compression bandaging support
- › Protection of bony prominences
- › Orthopedic & trauma care

SIZES AVAILABLE

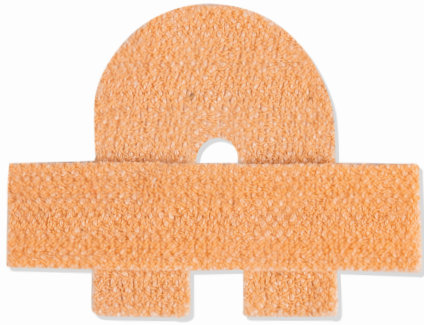

5 cm X 3 mtr 10 cm X 3 mtr
7.5 cm X 3 mtr 15 cm X 3 mtr

Available in E/O Sterile,
Gamma Sterile and Non-Sterile Options

JAISON FIX

(IV CANNULA FIXATOR)

KEY FEATURES

- **Secure fixation** of IV cannula wings
- **Hypoallergenic adhesive**—skin friendly
- **Breathable**

USES

- Fixation of **peripheral IV cannula**
- Long-duration IV therapy
- ICU, OT, emergency & ward use
- Pediatric and adult patients

SIZES AVAILABLE

5 cm X 6 cm

TRANSPARENT IV FILM DRESSING (FRAME TYPE)

KEY FEATURES

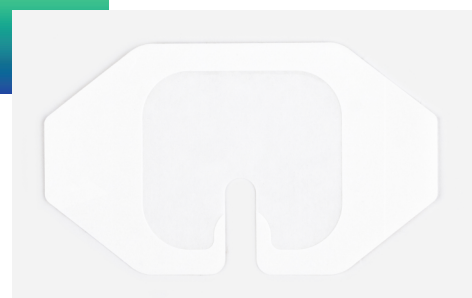

- **Crystal-Clear Transparency**—easy site inspection
- **PU breathable film**—allows oxygen & moisture vapor transmission
- **Waterproof & bacteria-resistant**
- **Hypoallergenic acrylic adhesive**—skin friendly
- **Flexible & conformable**—moves with the patient
- **Sterile, single-use**

COMMON USES

- Securing **peripheral IV cannula**
- Central line & catheter site protection
- Injection & puncture sites
- Short-to medium-term wound coverage
- ICU, OT, emergency & ward applications

SIZES AVAILABLE

8.5 cm X 7 cm
10.5 cm X 8.5 cm
6 cm X 7 cm

Available in E/O Sterile and Gamma Options

NON WOVEN ADHESIVE DRESSING WITH NON-ADHERENT PAD

Available in E/O Sterile and Gamma Options

KEY FEATURES

- **Breathable non-woven fabric**—allows airflow
- **Soft absorbent pad**—manages light to moderate exudate
- **Non-adherent wound contact layer**
- painless removal
- **Hypoallergenic acrylic adhesive**
- **Conformable & comfortable**
- **Sterile, single-use**

COMMON USES

- Post-operative surgical wounds
- Sutured or stapled incisions
- Minor cuts, abrasions & lacerations
- Donor sites (light exudate)
- OPD, ward & home care use

SIZES AVAILABLE

DRESSING SIZES

5 * 15 cm
5 * 20 cm
5 * 25 cm
5 * 30 cm

TRANSPARENT DRESSING WITH NON-ADHERENT PAD

KEY FEATURES

- **Clear PU film**—visual inspection without removal
- **Central non-adherent pad**—won't stick to the wound
- **Breathable**—allows moisture vapor transmission
- **Waterproof & bacteria-resistant barrier**
- **Hypoallergenic acrylic adhesive**
- **Flexible & conformable** for patient comfort
- **Sterile, single-use**

COMMON USES

- Post-operative incisions (low exudate)
- Injection & puncture sites
- Minor cuts, abrasions, sutured wounds
- Superficial burns (dry/low exudate)

SIZES AVAILABLE
